UNIVERSITY TESTED INGREDIENTS PLUS CANNA-ACTIVES**

CHROME MATE®

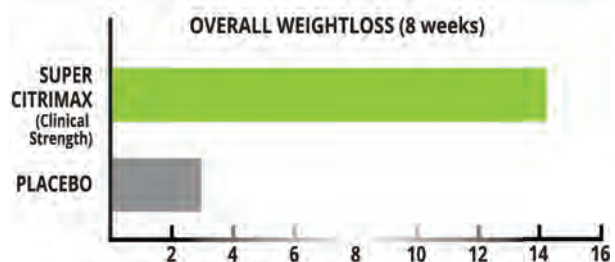

STUDY OF ABSORPTION RATES OF CHROMEMATE VS. COMPETITION

ChromeMate®

Research, including studies sponsored by the National Institutes of Health (NIH) and USDA, shows that ChromeMate® supports many health benefits. ChromeMate® has been shown to be 18-times more bioactive than other chromium complexes tested. Clinical research shows that ChromeMate® helps support healthy blood sugar levels, cholesterol levels and weight management.

Super CitriMax®

Super CitriMax® (IH464)

While studies in animals have demonstrated consistent and significant results, studies on HCA in humans have produced mixed results. A randomized placebo-controlled study was conducted involving 20 overweight adults. It was demonstrated that 500 mg HCA (as 3 CitriMax®) taken three times per day before meals for eight weeks resulted in 215% greater weight loss than those taking a placebo, without side effects associated with diet stimulants. Furthermore a significant reduction was also observed in cholesterol and triglyceride levels.

WARNING: Not for use by individuals under 18 or who are pregnant or nursing. May contain nut residue or pollen, which can cause reactions in some people. Do not use if you are at risk or being treated for high blood pressure, kidney, thyroid, heart or psychiatric disease, anxiety, depression, seizure disorder or stroke. Consult with your health professional if you have any concerns prior to use or if you experience rapid heartbeat, headaches or shortness of breath and, of course, discontinue use.
